Ford	Mustang Mach-E	ABRP	iOS version works well; may not work with Android version

Extra Notes:
1. Due to the fast-growing EV markets, this list may not cover all the EVs. We will update it regularly.
2. Generic OBD2 apps will not work with EVs, except for Car Scanner ELM OBD2, which has connection profiles for many EVs.
3. The ABRP Android app requires Bluetooth LE OBD2 adapters, so the OBDCheck BLE may not work with the Android version because it works under Classic Bluetooth mode for Android.
